Completion checkboxes

In some courses, a check mark can be placed next to the activity name to indicate that it has been completed.

Click the checkbox to activate it and indicate that the activity has been completed. If you click it again, the check mark disappears. This is an optional action used to personally track your progress throughout the course.

Activities with dotted checkboxes will appear as completed according to the conditions established by the teacher (for example, having written in the forum or submitted the assignment) and cannot be activated by the student.
